Hon. Wm. M. Schuchman, one of the Judges of the Court of Appeals, died yesterday afternoon, at his residence in New York.

Albert E. Deussen, a clerk in the First National bank of New York, made a complaint at the Tombs Police Court, yesterday, against Harry Sherman and John J. Fox, for robbing him of thirteen hundred dollars in a house of ill-fame.

John Hoyt and Thomas J. Schuchman, who were locked up for trial yesterday, by Justice Downing, at the Tombs, on a charge of conspiracy to defraud, were taken to Exchange Place in January last, when ten thousand one hundred and eighty-nine dollars and seventy cents were carried off in open daylight. Both of the accused had possession of some of the certificates and negotiable notes of the bank.

The Herald's Minnie, Long Island, special says ex-Alderman Fox, President of the South Side railroad, was injured there on the railroad last Monday, in a fall from a car. He is now in a precarious condition. He was considerably bruised about the body, but it is thought he received no internal injury, and hopes reorganization of his recovery.

We must protest against the course of the Board of Health in trying to keep the facts respecting the spread of the cholera in this city secret. The honest plan is to tell the country. All will be the more daily. Then people know what to expect. Under the secret system the country will be filled with alarm and the prevalence of the disease in this city, and yet there is nothing to be alarmed at, as the facts show.

The cholera cases in this city, unfortunately, are not the same as in New Orleans. There are, however, quite a number of deaths from cholera in this city, and the people cannot be too careful how they handle the new potatoes and the nurseries and vegetable stands, and the market stands. The disgracefully unhygienic condition of the city, for the spread of cholera, is the responsibility of the city, and the people will, doubtless, give the petition as a splendid start.

The Tribune gives some details showing that the Rodman gang has proved a failure in the late experiments in England.

D'Arcy McGee, it is stated, has been threatened with a new and more serious disclosure concerning the Fenian organization in Canada.

Marlines, ex-President of Nicaragua, who recently left for England to represent his country, is especially charged with the delivery of a speech in London to Nicaragua. The Nicaraguans papers seem to have been waiting for the speech to be delivered, and claim that the United States will demand the territory if Marlines fails to claim it.

Brevet Brigadier General Fred Ward and his wife, who were among the passengers for California to-day.

Two more deaths from cholera reported.

Commissioners of Public Charities are about to erect a commodious building on Ward's Island for the reclamation of the city.

It is rumored that most of the proceeds of the recent sale of confiscated goods were swallowed up by the speculators.

It is stated that the Rev. Doctor Stubbs has received a number of anonymous letters threatening him with serious consequences if he continues to receive the contributions of Mr. Tyng. The latter would doubtless be the first to condemn such unwarrantable proceeding on the part of his friends.

 Mr. Bradley asks Him to Fight.

WASHINGTON, August 10.
 The Times' special says it is reported on good authority that President Johnson, after having signed the death sentence of Mrs. Surratt, returned to the office of the Military Commission, who had presented the findings to him, that he was protected against any further action, according to any authority. This remark, according to the consideration of the recommendation for mercy to the Surratts.

Among the documents on file in the War Department relative to the assassination of President Lincoln, is a letter from a man, who was executed, in which he states that Booth told him on the day of assassination that he was the assassin Surratt, was in town, and occupied rooms at the Herndon House.

We must protest against the course of the Board of Health in trying to keep the facts respecting the spread of the cholera in this city secret. The honest plan is to tell the country. All will be the more daily. Then people know what to expect. Under the secret system the country will be filled with alarm and the prevalence of the disease in this city, and yet there is nothing to be alarmed at, as the facts show.

The cholera cases in this city, unfortunately, are not the same as in New Orleans. There are, however, quite a number of deaths from cholera in this city, and the people cannot be too careful how they handle the new potatoes and the nurseries and vegetable stands, and the market stands. The disgracefully unhygienic condition of the city, for the spread of cholera, is the responsibility of the city, and the people will, doubtless, give the petition as a splendid start.
